

## Announcements

---

**AANA lab courses** offer attendees a personalized learning experience like no other. Our hands-on cadaveric training courses utilize the latest virtual reality simulation technology and expert knowledge from leading surgeons to ensure attendees walk away with the refined skills needed to improve patient outcomes. Find your course today at [aana.org/labcourses](http://aana.org/labcourses).

Did you miss a session you wanted to attend at AANA19? The **AANA19 All-Access Pass** contains roughly **50 hours of recorded content** from the 2019 AANA Annual Meeting, allowing you to get up-to-speed on the latest advances in arthroscopy whenever and wherever is convenient for you. Learn more at [aana.org/allaccess](http://aana.org/allaccess).

FORE and AANA are teaming up for the **World Series of Live Surgery**, September 13-15, to deliver the latest treatment options for sports medicine injuries and infirmities for knee, shoulder, elbow and hip. This three-day interactive meeting is enhanced with **17 live surgery demonstrations!** Register now at [FOREonline.org/worldseries](http://FOREonline.org/worldseries).
