The meta-analysis cited above by Dwyer et al. was without error. After publication, however, an error was detected in one of the articles included in the meta-analysis. This error necessitated a change to the results of Dwyer et al. Fortunately, there was no change to Dwyer et al.'s conclusions. The updated results are discussed in the following Letter to the Editor, published in the November 2020 issue: Dwyer T, Whelan D, Shah PS, Ajrawat P, Hoit G, Chahal J.
